

## SAMPLE ITINERARY 2-DAY VISIT

### DAY 1

- Wake up and get moving so you can hit the slopes early. **Grab a hearty breakfast at one of Winter Park's Village restaurants** located conveniently just steps from the lifts, including Back Bowl Soup Company, Goody's, or Coffee & Tea Market.
- **Explore Winter Park Resort's over 3,000 acres of ski-able terrain spread out over its majestic Seven Territories.** From groomers to bumps and everything in between, Winter Park Resort has experiences for skiers/riders of every age and ability, but pace yourself! It'll be tempting, but you don't have to hit all Seven Territories the first day!
- **Take a Mountain Tour** with one of Winter Park Resort's experienced mountain guides. You'll learn all about the area's rich history while also picking up some insider knowledge on the best places to explore! You might even be turned on to a secret powder stash or two!
- If you need to hone your skills, a **group lesson with Winter Park's Ski + Ride School** is the perfect way to get some tips that will enhance your entire stay. Whether you're a "never-ever" or an expert, Winter Park's Ski + Ride School has a program tailor made for you.
- **Grab lunch at one of Winter Park's six on-mountain restaurants**, including the spectacular new Lunch Rock Restaurant perched atop Mary Jane Territory. Winter Park can arrange for a special group lunch or provide your group with individual food vouchers that can be used throughout the resort. While you're at Lunch Rock, treat yourself to one of 12 Colorado craft beers available at the High Craft Bar. In particular, try the tasty Mary Jane Ale, which is only available at Winter Park Resort!
- **Finish the day with a beer at Derailer Bar**, Winter Park's favorite Après Ski spot. Listen for the train whistle, which signifies Happy Hour has begun!
- **Enjoy a delicious dinner at Doc's Roadhouse** or Cheeky Monk Belgian Beer Café, or if it's a Friday or Saturday night, treat yourself to a moonlit gondola ride up to The Lodge at Sunspot for a gourmet feast.

### DAY 2

- There are still territories to explore! After breakfast, **hit the slopes** and put into practice what you learned in your lesson the day before.
- Need a break from skiing? **Take a Scenic Snowcat Tour** which features a 13-passenger heated snowcat that leaves from the base of Winter Park and climbs to The Lodge at Sunspot, 10,713 feet high!
- **Take on Winter Park's Coca-Cola Tubing**, which includes four banked lanes and a magic carpet to whisk you back to the top for more laps. Be sure to try a delicious cup of gourmet hot chocolate at the Hill House warming hut at the top of the tubing hill. Tubing is open into the evening so you can also try it under the lights!
- After two days of skiing, time to **work out the kinks at Alpenglow Spa**, conveniently located right in the Village at Winter Park Resort. Walk-ins are welcome and a massage will leave you rejuvenated for more adventure!
- **Have dinner in Downtown Winter Park**, which has a number of great options all within its quaint main street. From higher-end fare at Volario's or Deno's to great family options like Hernando's Pizza, Downtown Winter Park has an excellent dining option for any budget or palate.
